

# Supporting International R&D projects in **Advanced Manufacturing**

**7th Call**

SMART is a flexible industry-driven EUREKA Cluster on Advanced Manufacturing, whose main objective is the promotion of collaborative and international close-to-market R&D&I projects with decentralised national funding.

Do you have an innovative project idea in advanced manufacturing related to the following topics?

#### Technical domains

-  Advanced Manufacturing Processes
-  Intelligent & Adaptive Manufacturing Systems
-  Digital, Virtual and Efficient Companies
-  Person-machine Collaboration
-  Sustainable Manufacturing
-  Customer-Based Manufacturing

#### Key application areas

-  Aerospace
-  Automotive
-  Railway
-  Consumer goods
-  Capital goods
-  Industrial Components

Build your international consortium with at least two partners from two different countries.

#### Supporting countries

\*In any case, whichever your country, contact your National Agency to explore funding options.

### 1 Prepare your project outline (PO)

The PO provides a short overview of the concept, the main objectives and the consortium of project (10-12 pages)\*.

### 2 Receive feedback

POs are evaluated and feedback is given when invited to the second stage.

### 3 Write the full project proposal (FPP)

The FPP is a complete description of the project objectives, excellence, implementation work packages and expected impact.\*

### 4 Successful projects get SMART label

After the evaluations performed by a panel of recognised experts in the field of manufacturing, the best projects are granted with the SMART Cluster label.

### 5 Apply for your national funding

SMART Office can provide you support accessing your National Funding Authority.

#### Elegibility criteria

SMART projects must have at least 2 partners from 2 different EUREKA countries, a duration between 2 and 3 years, and the budget must be balanced among participants/countries. No minimum/maximum budgets are defined.

\* Remember to upload the info to the Cluster Project's Tool.

# PROPOSERS' DAY 23-11-2023

**Donostia - San Sebastián  
(SPAIN)**

**Set up your project  
idea on Advanced  
Manufacturing**

**SIGN UP!**

**The event will be held in conjunction with  
ManuFUTURE Conference 2023!**

**Are you looking for partners or proposals to engage with?**  
Check SMART website - "Projects Looking for partners" section
