

SUPPORTING INTERNATIONAL  
**R&D PROJECTS**  
IN ADVANCED MANUFACTURING

**10<sup>th</sup> Call**

SMART is a flexible industry-driven EUREKA Cluster on Advanced Manufacturing, whose main objective is the promotion of collaborative and international close-to-market R&D&I projects with decentralised national funding.

## Do you have an innovative project idea in advanced manufacturing related to the following topics?

### Technical domains

-  Advanced Manufacturing Processes
-  Intelligent & Adaptive Manufacturing Systems
-  Design safe, sustainable and digital products
-  Digital, Virtual & Efficient Companies
-  Person-Machine collaboration
-  Human Centric Manufacturing
-  Sustainable Manufacturing Towards a Circular Economy
-  Customer-Based manufacturing
-  New Business Models

### Key application areas

-  Aerospace
-  Automotive
-  Railway
-  Consumer goods
-  Capital Goods
-  Industrial Components
-  Bio
-  Health
-  Agrifood

## Build your international consortium with at least two partners from two different countries.

### Funding in your country

\*In any case, whichever your country, contact your National Agency to explore funding options.

### Elegibility criteria

SMART projects must have at least 2 partners from 2 different EUREKA countries and the budget must be balanced among participants/countries. No minimum/maximum budgets are defined.

\* Remember to upload the info to the Cluster Project's Tool: [cluster-projects.eurektools.eu](https://cluster-projects.eurektools.eu).

# PROPOSERS' DAY

Share your project  
idea on Advanced  
Manufacturing

SIGN UP!

8th OCTOBER  
2026

📍 Viena
